

Government Specifications

Core Competencies

QRamp, finally a good looking, maintenance-free, ramp system designed to be quick, easy and exceptionally safe.

- QRamp: ADA compliant running surface and suitable for residential and light commercial applications.
- QRamp Frames: Constructed using industrial grade, extruded aluminum with a powder coat finish.
- QRamp Surface: Uses a premium marine decking panel known as ThruFlow™. The panels are comprised of a reinforced polypropylene.
- Ramp Systems: Completely modular & stay attached to the ramp user not the building.

Differentiators

- Safety features above and beyond ADA compliance standards including 3 inch curbs, photo luminescent post caps, and 360 degree non slip decking, 0.78 Coefficient of Friction.
- The ThruFlow™ panels are grated to allow snow and water to pass through creating a maintenance free ramp system.
- Decking comes with a Limited Lifetime Warranty.
- QRamp has superior quality and aesthetics.
